

# Mohamad Wasim Alsaeed

Senior Full Stack .NET Developer

@ wasimalsaeed@outlook.com https://www.linkedin.com/in/wasimalsaeed https://mohamad-wasim-alsaeed.github.io

## SUMMARY

Distinguished Senior .NET Developer with over 8 years of expertise in the .NET Framework. Specialized in crafting customized web solutions using ASP.NET Core, showcasing proficiency in Azure-based cloud solutions, and a proven track record in implementing Microservices architecture. I possess hands-on experience with React, contributing to the development of dynamic and responsive user interfaces. My proficiency extends to MS SQL database management and Oracle, ensuring comprehensive database solutions. Skilled across the entire software development lifecycle, from requirements analysis to robust production. I bring a dynamic and proficient approach, combining passion, technical expertise, and collaborative skills to foster effective teamwork.

## EXPERIENCE
