EXPERIENCE

Full Stack Web Developer

Goto.Health

📅 01/2022 - 12/2023   📍 Turkey-Australia -Remotly

ASP.NET Core · NopCommerce · Payment Gateways · E-Commerce

- We connect Health practitioners including; GP's, chiropractors, dieticians, remedial massage therapists, osteopaths podiatrists and physiotherapists with new customers. We do this by aggregating appointment availability in real-time and also deliver payment security to health practitioners Goto.health is a revolutionary new service that flips the traditional appointment booking model to being focused around your schedule.

Full Stack Web Developer

CodeMerx

📅 06/2021 - 11/2021   📍 Turkey - Bulgaria - Remotly

React.Js - ASP.NET Core - SQL Server - SQL Lite - Web API

- We are an elite team of really hardcore software developers with a public portfolio of equally hardcore products. Thus, we provide a broad spectrum of software outsourcing from deep R&D and complex system design to adding raw coding power to existing teams For decades, we have been gaining coding and design experience while creating and maintaining some of the highest complexity tools in the Microsoft ecosystem used by millions of other developers worldwide

Web Developer

MeduNet

📅 11/2019 - 06/2021   📍 Turkey - Saudi Arabia - Remotly

ASP.NET MVC - ASP.NET Core - SQL Server - Oracle - Web API

- MeduNet solutions and E-services are based on its solid infrastructure, cutting-edge technologies and skilled teams. Investing in building these success factors has resulted in MeduNet ability to deliver complex solutions at a superior quality. This allowed MeduNet to handle very sensitive and prestigious projects for both the Government as well as the Private sectors

Backend Developer

JungleBird

📅 02/2019 - 10/2019   📍 Syria - Kuwait - Remotly

ASP.NET Core - MongDB - Web API

- offers a simple interface and an all-in-one shopping cart system that all experience levels can understand. However, once you get started with Shopify, it may become a little confusing. After all, it's still a rather powerful SaaS (software as a service) solution meant to operate on a professional level with multiple moving pieces like payment processing, marketing

Backend Developer

Health In Touch

📅 03/2017 - 10/2019   📍 Syria - UAE - Remotly

ASP.NET MVC - Web API - SQL Server

- Health in touch is a new startup company , coming soon multi platforms to connect with the medical and health world in a single touch.

WPF Developer

Beetronex

📅 01/2015 - 02/2017   📍 Syria

WPF - SQL Server - Entity Framework

- We believe in no boundaries between hardware and software fields. So, our speciality was to combine both systems to develop dependently embedded systems; thus we specialise in designing electronics and power electronics systems, desktop application, mobile applications, websites and server-side solutions and lastly, graphic design
